About Tute

What Tute does is simple: our team of qualified, experienced teachers deliver live online lessons to fill gaps in the education of children and young people. Those gaps have never been wider and Tute's purpose never more fitting.

We support local authorities, schools, and non-mainstream settings to meet their statutory obligations by packaging our lessons into different curriculums that provide flexibility, suit different priorities, and work for varying budgets.

Last year, we successfully delivered nearly 50,000 lessons to over 4,700 students across 253 settings. As we embark on an ambitious journey towards 40% growth this year, our top priority remains maintaining the exceptional quality of our service while keeping the student at the core of everything we do. To achieve this, we are excited to welcome more talented people into our incredible team.

Currently, our team consists of around 154 members, with 80 employed and the rest engaged as contractors (an integral part of our team). To meet the surging demand for our service and to realise our growth objectives, we anticipate expanding our team to approximately 180 members this year, with 101 of those being employed.

It's an exciting time to join Tute. We're an ethical and supportive company committed to our team. We value everyone's voice, foster collaboration, and share a common vision: to create a world where online learning enables any child, anywhere, to achieve their full potential.

Please do read on to see how this role fits into our wider plans and how you could be making a difference to young people's lives.

Role purpose

We are seeking a dedicated and enthusiastic operations associate to join and bolster our dynamic team as we undergo a period of reconfiguration to better meet the needs of our partners and our own people.

The operations associate role sits within the newly formed business-as-usual (BAU) segment of the operations department, reporting to the operations lead and supported by the operations manager. This position is crucial for delivering our online learning journeys, from scheduling, to support, to ensuring each student has the right timetable for them and verifying that each learning setting has the right technical configuration to engage with our bespoke platform.

Our focus is on delivering outstanding support to our partners (customers) and ensuring the seamless delivery of our live online lessons, and we need a team of professionals to make this happen. In this role, you will find yourself at the heart of our operations function, directly impacting on the experience of our partners and students, while also working closely with all of the other functions within Tute as our business grows and scales.

In addition to acting as a valuable point of contact for our partners, you will also own a segment of the booking and scheduling process, as well as a few other administrative tasks that must be handled with precision and focus so that we can achieve optimal outcomes. Collaboration across departments will be a part of your daily routine, aimed at enhancing service delivery and operational efficiency. Your contributions will extend beyond immediate tasks, providing valuable insights through regular performance reports, aiding decision-making and inputting into improvement initiatives. Full training in our systems (namely our bespoke platform, Dynamics 365, Teams) will of course be provided, and expectations will be clearly set.

We are looking for someone who shares our commitment to education, equipped with exemplary organisational and communication skills, and has a track record of thriving in fast-paced environments. You may not have professional operations experience, but if you have the detail-oriented and customer-centric skills we're looking for, then we'd love to hear from you!

This role offers you the chance to make a significant contribution to our operations, ensuring smooth, efficient, and effective delivery of our important service.

Key responsibilities

Partner support

- Answer inbound calls from our partners in learning settings
- Offer first line support for technical or clerical issues that are preventing learning
- Conduct initial tech test calls with onboarding partner settings; escalating these if they fail

Support queue handling

- Respond to email cases in our CRM, Dynamics 365
- Liaise with internal teams to ensure SLAs are consistently met
- Ensure every case is responded to and properly processed in Dynamics 365

Administration

- Respond to all late notifications to ensure every lesson is delivered smoothly
- Ensure that all curriculum learning resources are uploaded into our platform ready for teaching
- Complete change requests from our partners

Data and reporting

- Produce weekly data snapshot of our inbound cases and calls
- Produce weekly KPI tables to report on booking and scheduling progress
- Prepare other ad hoc data requests as needed

Scheduling

- Contribute to departmental objectives by owning your phases of booking and scheduling lessons

- Other tasks you will own may include: monitoring teaching group sizes and report when groups need to be created to add capacity; responding to cover requests; maintaining teacher availability information
- Assist with assigning teachers to lessons and setting up lessons in our bespoke platform

Team

- Support our dynamic operations team through our busiest time of the year with a positive, can-do attitude
- Bring an eagerness to learn and engage with our partners and our people
- Act as a team player, working collaboratively in a supportive, passionate team dedicated to improving the lives of children and young people through education
